Professional Summary

MERN Stack Developer experienced in building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST APIs, JWT authentication, and responsive UI development. Delivered real-world projects including a production-level Learning Management System and high-performance web apps, improving performance scores by up to 70%. Focused on clean code, scalability, and user-centric design.

Work Experience

MERN Stack Intern Mar 2026 – Present

CDGAI – Cecos Innovation

- Building a full-stack Learning Management System with course management, enrollment, and dashboards.
- Implemented JWT authentication with role-based access (admin, instructor, student).
- Developed modular React components improving code reusability and maintainability.
- Collaborating via Git, pull requests, and Agile workflows.

Frontend Developer Intern Dec 2025 – Jan 2026

Apexify Technologies (Remote)

- Built React.js interfaces integrated with REST APIs for real-world applications.
- Improved responsiveness and reduced load time for better user experience.
- Resolved cross-browser compatibility issues across major browsers.

Frontend Developer Intern Jul 2024 – Sep 2024

Software Synergy Solution, Peshawar

- Developed responsive UI using React.js and modern JavaScript (ES6+).
- Improved UI performance by 30% through optimization techniques.
- Worked in Agile environment with team collaboration and version control.

Projects

Learning Management System (LMS)

- Built a full-stack MERN application handling courses, enrollment, and dashboards.
- Implemented role-based authentication system with secure JWT.
- Designed scalable architecture with modular React components.
- Delivered smooth real-time user experience without page reloads.

Recipe Sharing Web App (FYP)

[GitHub](#) — [Live Demo](#)

- Developed full-stack app with Firebase authentication and real-time database.
- Implemented category filtering and dynamic UI rendering.
- Improved Lighthouse performance score significantly via optimization.
- Designed modern UI using Material UI and Tailwind CSS.

MERN Food Delivery App

[GitHub](#) — [Live Demo](#)

- Built full-stack app with authentication, cart system, and REST APIs.
- Managed global state using Redux Toolkit.
- Implemented responsive UI across devices.
- Ensured efficient data handling and user flow.

Country & Weather Apps

[Country](#) — [Weather](#)

- Built API-driven apps with real-time data rendering.
- Implemented search, filtering, and dynamic UI updates.
- Handled API errors and loading states gracefully.
- Focused on performance and responsive design.

Technical Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, Firebase
- **Tools:** REST APIs, JWT Authentication, Redux Toolkit, Git

Education

Islamia College University, Peshawar

BS Software Engineering 3.10/4.0

Sep 2021 – Jul 2025

FYP: Recipe Sharing Web App

Hangu Institute of Science and Technology

FSc Pre-Engineering 854/1100

Hangu Institute of Science and Technology

Matriculation (Science) 980/1100

Certifications

- Web Development – Saylani Welfare
- Freelancing – DigiSkills
- Graphic Designing
