

IHSAN ULLAH

MERN Stack Developer

+92-337-9692307 — okzihsan956@gmail.com — linkedin.com/in/ihsanullah307 — github.com/ihsanqfpp — [Portfolio](#)

Professional Summary

MERN Stack Developer with a BS in Software Engineering, currently developing a production-level Learning Management System (LMS). Experienced in building full-stack applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST APIs, JWT authentication, and responsive UI development. Delivered multiple real-world applications with a strong focus on performance, scalability, and clean, maintainable code.

Work Experience

MERN Stack Intern

Mar 2026 – Present

CDGAI – Cecos Innovation, Peshawar

- Currently developing a full-stack Learning Management System (LMS) with role-based access for admin, instructor, and student.
- Implemented secure JWT authentication and protected routes across frontend and backend.
- Built reusable React components for dashboards, course modules, and admin panel.
- Developed modular REST APIs using Node.js and Express.js for scalable architecture.
- Working in Agile team environment using Git for collaboration and version control.

Frontend Developer Intern

Jul 2024 – Sep 2024

Software Synergy Solution, Peshawar

- Developed responsive and high-performance UI using React.js and modern JavaScript (ES6+).
- Improved application performance by optimizing rendering and reducing unnecessary re-renders.
- Collaborated in Agile workflow ensuring timely delivery of features.

Projects

Recipe Sharing Web App (FYP)

[GitHub](#) — [Live Demo](#)

- Built a full-stack application using React.js and Firebase with authentication and real-time database.
- Implemented category filtering and optimized UI rendering for improved performance.
- Designed responsive UI using Material UI and Tailwind CSS for better user experience.
- Delivered scalable and maintainable architecture with efficient state management.

MERN Food Delivery App

[GitHub](#) — [Live Demo](#)

- Developed full-stack MERN application with authentication, cart system, and order management.
- Managed global state using Redux Toolkit for predictable and efficient data flow.
- Built REST APIs for smooth communication between frontend and backend.
- Ensured responsive design and seamless user experience across devices.

Country & Weather Applications

[Country App](#) — [Weather App](#)

- Built API-driven applications with real-time data integration and dynamic UI updates.
- Implemented search, filtering, and error handling for enhanced usability.
- Optimized data fetching and loading states for better performance.
- Delivered responsive and user-friendly interfaces.

Technical Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, Firebase
- **Tools:** REST APIs, JWT Authentication, Redux Toolkit, Git, Postman
- **Deployment:** Vercel, Netlify, Render

Education

Islamia College University, Peshawar
BS Software Engineering 3.10/4.0

Final Year Project: Recipe Sharing Web App

Hangu Institute of Science and Technology
FSc Pre-Engineering 854/1100

Hangu Institute of Science and Technology
Matriculation (Science) 980/1100

Certifications

- Web Development – Saylani Welfare
- Freelancing – DigiSkills
- Graphic Designing
