

IHSAN ULLAH

MERN Stack Developer

+92-337-9692307 — okzihsan956@gmail.com — linkedin.com/in/ihsanullah307 — github.com/ihsanqfpp — [Portfolio](#)

Professional Summary

Results-driven MERN Stack Developer with hands-on experience building scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, JWT authentication, and responsive UI engineering. Delivered multiple production-level projects, improving performance and user experience by up to 30%. Passionate about clean code, performance optimization, and building user-centric solutions.

Work Experience

MERN Stack Intern

Mar 2026 – Present

CDGAI – Cecos Innovation

- Currently developing a full-stack Learning Management System (LMS) using MERN stack with role-based authentication (admin, instructor, student).
- Implementing secure JWT authentication and protected routes to manage user access.
- Designing scalable architecture with reusable React components and modular backend APIs.
- Collaborating in Agile workflow using Git, version control, and structured development practices.

Frontend Developer Intern

Jul 2024 – Sep 2024

Software Synergy Solution, Peshawar

- Built responsive and high-performance user interfaces using React.js and modern JavaScript (ES6+).
- Improved UI responsiveness and performance by 30% through optimization techniques.
- Collaborated with team members in Agile environment ensuring timely delivery of features.

Projects

Recipe Sharing Web App (FYP)

[GitHub](#) — [Live Demo](#)

- Developed a full-stack web application using React.js and Firebase with authentication and real-time database.
- Implemented dynamic category filtering and optimized UI rendering for better performance.
- Enhanced user experience with responsive design and modern UI using Material UI and Tailwind CSS.
- Optimized application performance and reduced load time through efficient state handling.

MERN Food Delivery App

[GitHub](#) — [Live Demo](#)

- Built a scalable full-stack MERN application with authentication, cart system, and REST API integration.
- Managed global application state using Redux Toolkit for efficient data handling.
- Implemented responsive UI ensuring seamless experience across devices.
- Designed efficient backend APIs for smooth user interaction and performance.

Country & Weather Applications

[Country App](#) — [Weather App](#)

- Developed API-driven applications with real-time data integration and dynamic UI updates.
- Implemented search, filtering, and conditional rendering for enhanced usability.
- Handled API errors, loading states, and optimized data fetching strategies.
- Delivered responsive and user-friendly interfaces using modern frontend practices.

Technical Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, Firebase
- **Tools:** REST APIs, JWT Authentication, Redux Toolkit, Git, Performance Optimization

Education

Islamia College University, Peshawar

BS Software Engineering 3.10/4.0

FYP: Recipe Sharing Web App

Hangu Institute of Science and Technology

FSc Pre-Engineering 854/1100

Hangu Institute of Science and Technology

Matriculation (Science) 980/1100

Certifications

- Web Development – Saylani Welfare
- Freelancing – DigiSkills
- Graphic Designing
